

My Love of DNA Healing

Why do I love DNA healing?

Although I have studied many healing modalities, and still use them all, working with DNA healing makes my conscious evolution smoother and quicker. Before I learned this form of deep healing, I felt like I was still working on the same theme for the longest time making my rounds on a treadmill that had no end. I kept thinking, “When does the fun start?”

After receiving DNA healing, I learned to release all beliefs about lack, limitation, disease, distress, pain, and other states of consciousness that are less than the perfection we perceive as being the natural human condition. After learning how to teach this healing technique to others, I have witnessed hundreds make quantum leaps forward in all areas of their lives, and many go on to heal others as well.

Though applying DNA healing to myself, I experience feeling younger as my energy increases, greater peace and calm within, deeper capacity for self-healing, quicker manifestations, and higher levels of meditative states. My sensitivity, perceptions, and telepathy has increased.

One of the best things that DNA healing gives me is the ability to live in a higher vibratory space which attracts beautiful soul families and friends into my life.

These are all the reasons why I love to spread this work to the world. Come walk with me as I take you into the Power of Now and the 7th plane of Creation where you will learn how to heal and manifest as co-creator of God. You all are wholeheartedly invited to share this wonderful healing gift with me.

Love
Margaret Loris RN MS
